Director of Bands

Dear Professor Reynolds:

I am writing to express my appreciation to you and your outstanding ensemble for the fine performance of AMERICAN GUERNICA. From the very first rehearsal I realized I was in the presence of uncommon music making.

I think your statement before the performance was eloquent, and I would very much like to have your words included on the tape you are having sent to me.

I enjoyed collaborating with you during the week. I understand now the special tone of excitement people use when they mention the University of Michigan Band program.

Sincerely yours,

Adolphus Hailstork
